Medical Volunteers Needed for 9HealthFair April 16th

College View Elementary seeks volunteers for its 9HealthFair being hosted on April 16th.

DENVER, CO - College View Elementary has teamed up with 9HealthFair to host an event featuring free health screenings for attendees over the age of eighteen. In order to make our event a success, we are looking for volunteers with medical experience to assist with screenings and health education.

We expect that many of our attendees will be latino and will therefore have interpreters on site to assist those medical volunteers which are not fluent in Spanish. Interested volunteers should contact Martha Rubi at their earliest convenience.

Blood pressure, pulse, and dental screenings will be complimentary and will be accompanied by educational information from various local organizations. Blood chemistry screenings will be \$35 to cover the costs of the lab work and will test blood sugar, cholesterol, triglycerides, liver, kidney, bone, thyroid, and muscle function.

To register for the fair please visit www.9HealthFair.org.

Health Fair Details:

Saturday, April 16th

7am-12pm

College View Elementary

2675 S Decatur St.

Denver, CO 80219
